

MORE FROM THE SLOPER LEDGERS FROM Stephen Steere.

There are a number of dies found in the records which as yet have not been found on stamps and therefore not proved as perfins. The dies shown here are from the Accounts Ledger in the postage section, which is the perfin box. None of these are in the Illustrated Catalogue or in the new Update Pages of the Illustrated Catalogue.

Perhaps someone will "find" them in their collection. To help members these dies will almost certainly be found on KGVI light or colour change stamps. Information, photocopy or actual stamp to STEPHEN please as Roy is snowed under with work at the moment - much on our behalf.

## MORE FROM THE SLOPER LEDGERS From Stephen Steere.

In Bulletin 268 Pg.16-17, Stephen asked for help in proving some of the Sloper dies. This has brought some success and he thanks those members who wrote to him, and also all unknown members who looked but didn't find anything to report. In all 5 of the dies have been found. Subject to confirmation by Roy Gault, they will appear in the New Identity pages.

Stephen has made up another page of these unproven Sloper dies for members to look for. They are likely to be found on KGV light colours up to early QEII, and may be amongst the "Provisionals". None of the dies shown are in the Illustrated Catalogue, or in the new Update pages. Again, can the actual stamp or photocopy be sent to Stephen at 1 Nicolson Road, Orpington, Kent BR5 4EH?

## MORE FROM THE SLOPER LEDGERS      From Stephen Steere

To continue the success from requests in previous Bulletins, Stephen has made up another page of these unproven Sloper dies for members to look for. They are most likely to be found on KGV light colours up to early QEII, and some may be amongst the "Provisionals". None of these dies shown are in either the old or new Illustrated Catalogues.

If you have an exact match or very similar one, can the actual stamp or a photocopy of it, be sent to Stephen at 1 Nicholson Rd, Orpington, Kent BR5 4EH.
